2018 Goals

- Focus on physical activity promotion and awareness regarding opportunities to be physically active on campus and in the surrounding community
- Support medical schools to integrate training and experiential learning about physical activity into curriculum of medical students
- Host a round table discussion: Updates on Exercise is Medicine and physical activity strategies in Thailand

2019 Goals

- Support EIM sessions in the 2019 International Conference of Sports and Exercise Science (Bangkok, Thailand)
 - Incorporate physical activity as a part of routine health care provider visits
 - Establish physical activity as a vital sign within the health care system and link health care professionals to fitness professionals for appropriate exercise prescription
-

Accomplishments to Date

- Conducted training workshops for health care providers
- Integrated physical activity training into the second and third year of medical school at Srinakarinwirot University
- Working with the Golden Jubilee Medical Center to integrate the EIM Solution into the health system
- Created practical EIM guidelines relating to how to prescribe exercise for specific groups/conditions
- Media marketing of EIM through our website, Facebook, Roll Up, Booklet, and mass communication (TV, newspaper, and magazines)
